

INTELLIGENCE WITHIN THE CAMERA

DeepinView 7 Series

Hard Hat Detection using Deep Learning Technology

Our latest **DeepinView Cameras** enable you to ensure workers and visitors are wearing hard hats / helmets in designated areas, to improve safety and comply with regulations.

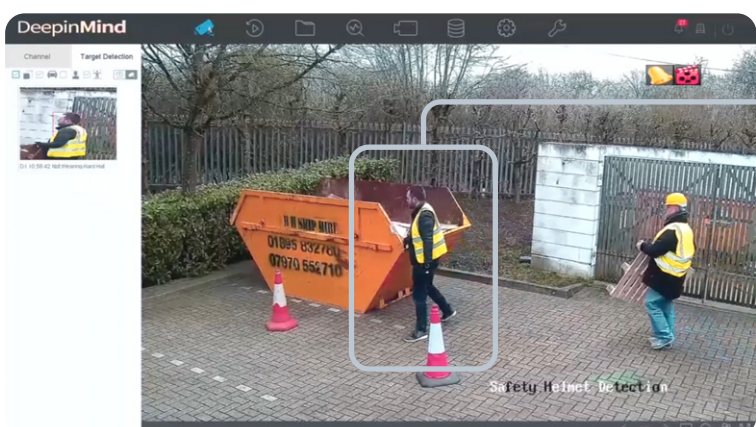

Alert if someone enters the area without a hardhat / helmet

Alert if someone removes hardhat while in the area

Supports facial recognition to identify the person

Safety Above All Else:
Detects whether or not a person is wearing a helmet, and instantly triggers alarm if someone is not wearing a helmet, which is essential to ensure safety.
